

Where to Go for Battery Disposal and Recycling

Electrochem has identified below two companies that can assist in the disposal and recycling of battery products. Please note that Electrochem does not endorse, recommend or assume any liability associated with the services of these companies. This information is provided for further information to our customers only. Please contact them directly.

Veolia Environment
<http://www.veoliaenvironnement.com>

Battery Solutions Inc.
<http://www.batteryrecycling.com>

**Please note that for shipping of a used battery pack or cells for disposal, packaging should meet the minimum requirements of your disposal facility and/or local applicable regulations.
